

Rochester would become home to the world's fastest computer named "Blue Gene" that would be able to perform 18.2 trillion operations per second. They probably could not have dreamed that 50 years later IBM would become Minnesota's largest information firm, with 5,600 employees in the Rochester and Twin Cities areas. And they probably could not have imagined that the plant they were planning would account for 15 percent of Minnesota's high-tech manufactured exports, in a State that continues to lead the field in technology.

IBM has spent 50 years growing into a world wide corporation which contributes to our economy at an astounding level. In 2005, IBM earned more U.S. patents than any other company for the 13th consecutive year, with 2,941 in 2005. IBM ensures that our Nation stays competitive in the global economy. Rochester has helped lead that wave of innovation.

IBM and its employees and retirees have also been generous supporters of education and nonprofit organizations. Through cash and technology grants of \$3.4 million and more than 185,000 hours of volunteerism in 2005 alone, they have been a great benefit to Minnesota's communities and schools.

With the people of Minnesota, I ask this Chamber to join in celebrating IBM's 50th year of operation in Rochester, MN.●

CONGRATULATIONS TO SISTER CITIES

● Mr. LEVIN. Mr. President, I would like to take this opportunity to congratulate the cities of Saginaw, MI, and Tokushima, Japan, on the 45th anniversary of their sister city partnership. This is a significant milestone, and I am delighted to recognize these two cities for their many years of dialog and exchange.

In 1961, Saginaw and Tokushima established a relationship that sought to promote cultural awareness between the cities. Since that time, there has been significant interaction between the two cities, including student groups and other delegations traveling between the cities for cultural, educational and other purposes, as well as the exchange of gifts.

In 1971, the Tokushima-Saginaw Friendship Garden was built in Saginaw, and the land adjacent to the garden was subsequently deeded to the city of Tokushima. In 1985, a tea house was also built in Saginaw. Contractors and laborers from both cities were instrumental in its construction of the tea house and the labor costs were equally borne by both Saginaw and Tokushima. Upon its completion, the tea house became one of only 11 in the United States, and the only authentic tea house in the Midwest.

Promoting dialog and interaction between cities in the United States and other countries is a great way for communities to learn, understand and re-

late to other cultures. Through their Sister City Partnership, residents and officials of the cities of Saginaw and Tokushima now have a deeper and more personal appreciation for the traditions of both the United States and Japan. I know my colleagues join me in congratulating Saginaw and Tokushima on the 45 years of cultural exchange, and I wish them the best as this relationship continues to develop further.●
